Dear Chief Judge William L. Osteen Jr.,

I propose to you this proposed order to grant my MOTION FOR REQUESTING COMPUTER FORENSIC EXAMINATION IN PREPERATION FOR WRIT OF HABEAS CORPUS (Doc #76). I am okay if you change this as it is just a draft. I really need this computer forensic examination for proving Actual Innocence without putting myself at risk of superseding indictment as what would happen if I request a New Trial. Proving actual innocence is in my best interest for my health not to further deteriorate by being put in the county jails, and for the interest of justice. I should get the opportunity to prove I am not guilty once and for all since the SBI requires a court order for anything to find new evidence, and so I need a court order to do this examination.

Sincerely,

Brian David Hill

Defendant
